

Portable Water Filter System

A Solution for Emergency and Rural area usage

- Easy to operate
- Small footprint (43cm x 61cm x 94cm)
- High mobility and lightweight (20kg)
- High flow rate (0.5 m³/hr)
- No Electricity required (hand pump)
- Remove: Bacteria, Suspended particulates, Colloidal, High molecular weight material

Specifications	
Configuration:	Capillary Type (out-to-in)
Fibre Material:	Hydrophilic Pan
Fibre Size:	2.0mm OD
Housing Dimension:	6" width x 24" in length
Inlet / Outlet Dimension:	1" NPT (Female Thread)
pH range (Operating)	3 - 9
Operating Pressure:	< 2.0 Bar
Operating Temperature:	< 50 °C
Product Turbidity:	< 0.1 NTU
Surface Area:	50 sq. ft.
Flow rate:	± 0.5 m ³ /hr (City Water)*

*Specifications are subject to change without prior notice.
